+65 8032-3205

I make rational design by asking good questions.

EDUCATION

University of Michigan - Ann Arbor

Sep 2018 - May 2020

M.S in Information Science - HCI Design, Data Analytics, Info Viz

Indiana University Bloomington

Sep 2012 - May 2016

B.S in Informatics - w/ Distinction

TOOLS

Figma

Mixpanel

UserTesting

ChatGPT

DESIGN METHODS

Lo-fi to hi-fi design

Interactive prototype

User story map

Service blueprint

RESEARCH METHODS

User interviews

Usability test

Survey

Affinity mapping

Heuristic evaluation

INTERESTS

Amateur dancer & professional foodie :)

EPAM

SENIOR DESIGNER OCT 2025 - PRESENT @ SINGAPORE, HYBRID

Redesigned a shipment tracking product for a well-established global logistics company with over 50 years in operation, introducing an AI-powered shipment summary feature used across 9 internal functions. Redefined the information architecture around real-world scenarios and facilitated high-stakes stakeholder discussions to drive cross-functional alignment.

dtcpay

PRODUCT DESIGNER FEB 2025 - JUN 2025 @ SINGAPORE, HYBRID

Designed payment, wallet, and legal compliance features in a fast-paced environment by reframing urgent requests—clarifying user problems, defining goals, scoping solutions, and driving toward measurable outcomes.

Ninja Van

PRODUCT DESIGNER JUL 2021 - JUL 2024 @ SINGAPORE, HYBRID

Led end-to-end web and mobile design projects for logistics operations:

- (1) enhancing parcel tracking & cost visibility for internal operations in 5 SEA countries (result: **98%** complete data on internal system).
- (2) translating complex technical prompts into clear instructions for warehouse staff (result: **46%** drop in operational errors).
- (3) improving the completeness of vehicle utilization data to enable analysis and optimization of operational costs (result: **90%** of usable data).

Regularly engaged stakeholders and engineers in the design process, for example by bringing them along to field studies in SEA for first-hand user insights, and synthesizing and sharing research findings afterward.

General Motors & Others

PRODUCT DESIGNER MAY 2019 - JUN 2021 @ U.S.

General Motors (10 months) - Streamlined tools to empower customer service agents in managing subscriptions and retaining customers. Enhanced user engagement in a vehicle safety app.

Others - Designed an interactive kiosk for **alcohol retailers** and a B2B2C diet coaching app for a **health tech** company.

Sears Holdings Corporation

SOFTWARE ENGINEER OCT 2016 - OCT 2018 @ CHICAGO, ON-SITE

Front-end development and end-end QA test for a B2B admin application.
